"Education:"

INATEL: //Instituto Nacional de Telecomunicações - Minas Gerais / Brazil
Bachelor in **Computing Engineering**; //Dec 2012

"Work experience:" //Latest emails

em@talentrocket.de: //TalentRocket - Legal Recruitment - www.talentrocket.de
Senior Front-end Developer; //Mar 2018/Present - Munich/Germany
//TalentRocket is a recruiting website specialized for lawyers in Germany. Using
//Angular 6 and Drupal as a backend, companies can offer jobs and have profile
//pages to get in touch with lawyers and hire them.

eduardo.queiroz@btgpactual.com: //BTG Pactual - Investment Bank - www.btgpactual.com
//Third-party - eduardomagaldi@brq.com - BRQ - Technology Consultancy - www.brq.com
Senior Systems Analyst (Front-end); //4 months - Nov 2017/Feb 2018 - São Paulo/Brazil
//Pioneer front-end in the development of an algo trading contest system
//Stratsphera, using BTG Pactual Digital patterns: Angular.js (1), Gulp,
//Node-sass and require.js. In Stratsphera, developers can code their investment
//strategies in Python directly on the website, select settings, and run their
//code checking graphs of performance afterwards. The winners of contests get
//high prizes in cash.

eduardo.magaldi@miraeducacao.com.br: //Mira Educação - Teaching Technology - www.mira.vc
Senior Front-end Programmer; //1 year - Jun 2016/Nov 2017 - São Paulo/Brazil
//Pioneer in the Mira Portal project, using Angular.js (1),
//Stylus, Bootstrap and npm scripts. Later changing to webpack, angular material,
//cordova and es6. The Mira Portal exchanges with its back-end in Java Spring,
//allowing teachers to plan lessons that will be automatically downloaded to
//tablets during classes.

eduardo.magaldi@fbiz.com.br: //F.biz - a WPP company - Advertising Agency - www.fbiz.com.br
Technology Coordinator; //1 year - Aug 2015/Jun 2016 - São Paulo/Brazil
//I have coordinated third-party developers in Unilever's team. F.biz is one of
//Unilever's two worldwide production partners, applying layout designs in its
//CMS platform to most websites of the brand's products, as Sunsilk, Hellmann's,
//Cif, Vim, Surf, Lipton, and so on. I acted as point of contact between
//programmers, international back-end partner, local creative agencies and
//project team, operating as consultant of layout application viability on the
//platform.
Front-end Programmer Analyst; //1 year - Jun 2014/Aug 2015 - São Paulo/Brazil
//Front-end programmers at F.biz work initially in a guideline, similar to
//Twitter's Bootstrap's documentation. Each module HTML/CSS/JS is built
//separately, using Sass, and then integrated in a single page using high
//standards of organization and agile methodology. A great part of the front-end
//of the sports e-commerce Netshoes was developed by the agency. I have also

//worked to brands as Unilever, Subaru, Zattini, Toddynho, Multiplus, Claro, NET
//and Instituto Maria da Penha.

emagaldi@verios.com.br: //Vérios Investimentos - Fintech - www.comparacaodefundos.com

Full-stack Developer; //2.5 years - Feb 2012/Jun 2014 - São Paulo/Brazil

//Built using very recent technologies at the time, as Twitter Bootstrap,
//Backbone.js, Node.js and Redis as a database, and focusing in performance,
//comparacaodefundos.com is the pioneer webapp for investment funds research in
//Brazil. Its architecture based on thick client makes it much faster than any
//(generally obsolete) national financial software. The webapp was famous in its
//market and very complimented by its performance. I still hold stocks of the
//firm.

eduardo@b2m1.com.br: //B2m1 Sistemas - Software Development - www.b2m1.com.br

Trainee (Designer and Developer); //2 years - Feb 2010/Dec 2011 - Itajubá/Brazil

//B2m1 is the largest company inside the incubator of Federal University of
//Itajubá, State of Minas Gerais, Brazil. The startup offers websites based on
//their own CMS, using Java and pixel perfect design, and also develops awarded
//software, one of them acquired by Peixe Urbano. Besides learning HTML,
//Javascript and CSS, I also obtained important design concepts developing
//layouts.

"Goals:"

Improve programming and language skills;
Be in touch with the latest trends in web development;

"Skills:"

HTML && CSS; //Less, Sass and Stylus
JavaScript; //Vanilla, jQuery, TypeScript and Node.js
Angular (6), Angular.js (1) && Backbone.js;
Require.js; //r.js
(grunt || gulp) && (npm || bower);

Redis;
GIT; //HUB - <https://github.com/eduardomagaldi>
AWS; //Amazon Web Services - Linux - EC2/S3/Route 53
Sublime Text 3 && Photoshop; //Mac OS/Windows
Design; // www.eduardomagaldi.com.br/eng

English: //fluent

IELTS: 7.5; //Apr 2014 - L:7.5 / R:8.0 / W:7.5 / S:6.5

Embassy CES; //4 weeks - level 6 (advanced) - Florida/2010

Spanish; //basic

German; //basic - A1.1
